

Quintin Russell

FULL-STACK SOFTWARE ENGINEER (RAILS + VUE) | REMOTE SAAS BUILDER

760-456-9726 | quinn.j.russell@gmail.com | <https://quintinrusselldev.vercel.app/>

Technical Skills

Languages: Ruby, JavaScript, Python, SQL, Go (basic)

Backend: Ruby on Rails, REST APIs, PostgreSQL, MongoDB

Frontend: Vue.js, React, JavaScript (ES6+), HTML, CSS

Tools: Git, GitHub, AWS S3, basic Docker

Concepts: System design, API design, data modeling, remote collaboration, Agile

Professional Experience

Freelance Full-Stack Developer (Remote)

10/2025 – Present

- Built production SaaS applications for international clients from requirements to deployment
- Designed reservation system for surf & yoga retreat in Morocco (booking, scheduling, reporting)
- Built client management platform for Texas tour company with real-time updates
- Designed REST APIs and PostgreSQL schemas using Ruby on Rails and event-driven architecture
- Translated business requirements into technical system architecture

Software Engineer, CorporateTools (Remote)

09/2022 – 10/2025

- Scaled communication platform to 1,000+ active users
- Built and maintained Rails/PostgreSQL backend systems with Vue frontend components
- Integrated legacy databases into modern architecture improving data reliability
- Improved system performance and client data retrieval workflows
- Collaborated with distributed engineering teams in remote environment

Teaching Assistant, LearningFuze (Remote)

01/2022 – 09/2022

- Mentored students in JavaScript, React, Express, and REST APIs
- Supported full-stack project development and debugging
- Facilitated standups and contributed to curriculum improvements

Environmental Engineer, Dudek (Remote)

04/2020 – 09/2022

- Built Python tools analyzing 50+ years of environmental data
- Performed GIS-based spatial data analysis and modeling
- Developed JavaScript tools for data visualization

Education

Oregon State University — Bachelor's Degree, Water Resources
LearningFuze — Full-Stack Web Development Program
